## DETAILED ACTION

### *Double Patenting*

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 1-42 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 2 and 4-6 of **U.S. Patent No. 6,675,017**. Although the conflicting claims are not identical, they are not patentably

Art Unit: 2681

distinct from each other because both inventions are drawn to a location blocking system.

Specifically, independent claims 1, 14, 22, 35, of the present application and claims 1, 2 and 4-6 of U.S. Patent No. 6,675,017 both disclose location systems that provide location information of a wireless communication device wherein the user of the wireless device can optionally select whether location information will be disclosed.

3. Claims 1-42 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 7, 9, 13, 15, 18, 24 and 27 of **copending Application No. 10/704,775**. Although the conflicting claims are not identical, they are not patentably distinct from each other because both disclose location systems that provide location information of a wireless communication device wherein the user of the wireless device can optionally select whether location information will be disclosed.

4. This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.
